

WITH **AVALON** YOU CAN BE ASSURED OF AN INNOVATIVE AND PROFESSIONAL TEAM. WE PRIDE OURSELVES ON OUR FAST RESPONSE, SAFETY PRACTISES AND ABILITY TO DELIVER HIGH QUALITY SERVICE AT COMPETITIVE PRICES.

AVALONS teams will safely access the most difficult areas and carry out your hygienic clean to a high standard. The very essence of difficult access work is that; difficult to access and therefore difficult to inspect! We understand your need to check you are getting what you pay for. To solve this problem you can safely abseil under our instruction to scope or inspect any work.

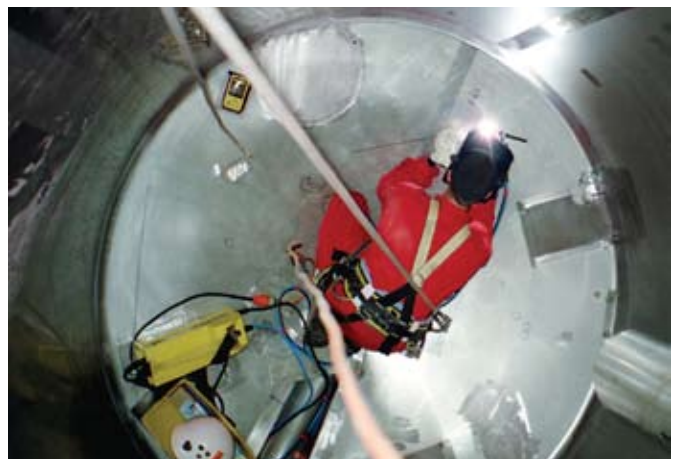

// SOLUTIONS

All operations are fully OSH compliant. AVALON has been working in New Zealand's Dairy Factories since 1996 and our teams hold all the necessary qualifications and site inductions.

Teams are available for immediate mobilisation for call out to works requiring an urgent response.

Inspection, testing and IQP certification of height safety and lifting systems and equipment is an important element of our dairy industry works. This includes everything from single point fall arrest anchorages to harnesses, chain blocks, maintenance rails and trolleys around building exteriors.

Our extensive experience allows AVALON to provide cost effective solutions.

TOP LEFT. Pipe clearance, Te Awamutu.
TOP RIGHT. Fully equipped rapid response, Lichfield.
ABOVE. Tig welding, Tirau.
